EXPERIENCE

TECHMAHINDRA | SOFTWARE DEVELOPER

Aug, 2021 – Feb, 2023

- Developed a Health management application from scratch and integrated a different modules progressively.
- Modules included patient encounter history, forms like PHQ9, 5DS, Case notes, USMM and a summary module.
- Worked on APIS to fetch data from MongoDB.
- Updated old code bases to modern development standards, improving functionality.
- Participated in software field testing to verify performance of developed projects.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Built databases and table structures for web applications.
- Designed multiple dynamic and browser compatible pages using HTML5, CSS3, Javascript (React, Redux)
